ABSTRACT Process cheese is produced by blending natural cheese in the presence of
emulsifying salts and other dairy and nondairy ingredients followed by heating and continuous
mixing to form a homogeneous product with an extended shelf life Extensive research on the

everyday human life are virtually metal based From everyday domestic applications to the
construction of complex engineering structures for industrial purposes metals with different
chemical properties and metallurgical make up are deployed for different uses Resolve a DOI

occurs seamlessly and happens when the battery reaches the set voltage limit The current
begins to drop as the battery starts to saturate full charge is reached when the current
decreases to 3–5 percent of the Ah rating
