Personal questions can also encourage people to be more thoughtful in their engagement with particular objects. In 2007 Exploratorium researcher Joyce Ma published a brief formative study on Daisy, an artificially intelligent computer program that engages visitors in text-based conversation. Daisy is a “chatbot” with some pre-programmed questions in her repertoire and Ma was studying the Origin of Life. Answers in Genesis: God or Natural Processes. When considering how life began there are only two options: Either life was created by an intelligent source, God, or it began by natural processes.

Writing unit tests in Python: How do I start? Stack Overflow. The docs for unittest would be a good place to start. Also, it is a bit late now, but in the future, please consider writing unit tests before or during the project itself. That way you can use them to test as you go along and, in theory, you can use them as regression tests to verify that your code changes have not broken any existing code.
